High Concept

Adjectives: Frozen, Mysterious, Stealthy, Skilled, Nomadic

Yuki Josei is a **Mysterious** woman who operates as a supernatural entity. Benevolent yet solitary, she wanders the **Frozen** landscape of snowy mountains and tundra to help guide lost travelers. She is **Skilled** in foraging and cooking, and she is also a great navigator. She is a **Nomadic** traveler and likes to avoid violence, so she uses mist, fog, or conjures up a storm to hide her appearance and presence in a **Stealthy** manner. She wears a kimono robe on her top half that also comes with a hood. At her lower half, she wears skirt and black tights with white boots for snow traversal. She also has pale skin, silver hair, and light purple eyes. She carries around a basket of food, and an umbrella made of straw to conceal her presence. But if one is ever lost in the mountains, she will appear to guide the way.
